

Turn-key Environmental Consultants, Inc. (TKEC) is a full service environmental consulting organization. We are a group of trained scientists with experience in solving complex environmental and safety problems.

Providing practical solutions utilizing diversified scientific strategies to solve environmental challenges faced by our clients, we identify hazards and potential liabilities through our site investigations, hazard assessments and project management services.

We pride ourselves in providing cost effective, common sense approaches to environmental and safety challenges faced by our clients.

Our aspiration is to become partners with our clients, establishing ourselves as a single source of technical knowledge and expertise.

“As a full service environmental consulting company, TKEC is committed to providing practical and cost-effective solutions to diverse environmental problems.” William Treasure, President Turn-Key Environmental.
